

Experience

• Ielektron Technologies

Associate Software Engineer

– **Client: MEI**

Python Developer

- Worked as a **Python Developer** in an ADAS (ABS) truck project, building and validating object-detection prototypes using YOLO on camera inputs for learning and experimentation, while the embedded team handled real-world data collection and hardware integration.

July 2025 – Present

Oct 2025 – Present

• Cloud Virtual Internship (Forage)

AWS APAC Solutions Architect Simulation

- Analyzed client requirements from simulated CEO emails to recommend tailored AWS solutions.
- Matched business needs with AWS services (EC2, S3, IAM, RDS) for scalability and cost-efficiency.
- Practiced architecture design, professional communication, and writing solution documentation.
- Gained experience in solution ideation, decision-making, and trade-off analysis.

Remote

Dec 2024

Technical Skills

- **Programming & Backend:** Python, FastAPI
- **Database & Connectivity:** MySQL
- **Version Control & Collaboration:** Git, GitHub
- **Generative AI:** LangChain, OpenAI API
- **CI/CD & Containerization:** Docker
- **Cloud & IaC:** AWS, Terraform
- **Operating Systems:** Linux

Projects

Automated ETL Pipeline using Python, Pandas, SQLite, and Docker

Aug 2025 - Sept 2025

[GitHub Repo](#)

Tools: *Python, Pandas, SQLite, Docker, SQL*

- **Designed** an ETL pipeline to **extract** raw sales CSV files, **transform** data with Pandas, and **load** into SQLite.
- **Containerized** the pipeline using Docker for consistent local development and deployment.
- **Automated** ETL workflow execution with a scheduled **Python** script, ensuring data freshness.

Infrastructure Automation on AWS using Terraform

May 2025

[GitHub Repo](#)

Tools: *Terraform, AWS (VPC, EC2, Subnet, SG), NGINX, Linux*

- **Provisioned** a modular AWS infrastructure with **Terraform**, including custom VPC, public subnet, route table, and EC2 instance.
- **Automated** EC2 configuration using `user_data` to install and run **NGINX** on boot, enabling web access via public IP.
- **Engineered** reusable IaC modules with outputs and validations; enforced **least-privilege security** using strict SG rules.

AWS Static Website Hosting

Mar 2025 – Apr 2025

- [GitHub Repo](#)
- [Watch Demo Video](#)

- Hosted a portfolio site on **Amazon S3**, configured static website settings and permissions.
- Used **CloudFront** for CDN delivery and HTTPS using default SSL (no custom domain).
- Planned **Route 53** integration, but used **CloudFront** URL to avoid domain cost as a student.
- Created and attached an **IAM user with S3 permissions** to follow AWS security best practices.

Certificates

- AWS Cloud Practitioner Essentials

AWS Skill Builder

View Certificate

Feb 2025
- AWS APAC Solutions Architecture Program

Forage

View Certificate

Dec 2024
- Python Programming

E-Cell IIT Hyderabad

View Certificate

Feb 2022

Education

- Indian Institute of Information Technology Dharwad (IIIT-DWD)

B.Tech in Electronics and Communication Engineering

CGPA: 6.48

Dec 2021 – May 2025

Achievements

- Selected for **AWS Cloud Quest: Cloud Practitioner** by AWS Skill Builder.
- Selected for the **Super 100 Program** by the **Haryana Government (2018–2020)** – among the **top 100 students** in the state chosen for this prestigious program to support **high-achieving students** from government schools who could not afford **IIT JEE/NEET coaching**. The selection process included scoring **80%+ in Class 10**, clearing a **two-level competitive exam**, and participating in a **5-day residential program** focused on **advanced academic concepts**.
